For 4 years the @DNC spent millions of dollars, and flooded our airwaves with warnings of how easily corrupted the presidential election can be... Now they're offended people believed them?

Secure elections are essential for a free country. Both Republicans and Democrats should be demanding that any potential fraud be investigated so that we're confident in the election results. If you agree, sign our petition for election integrity:

Standing up for free and fair elections isn't Republican or Democrat, it's American. It's not about changing or overturning, it's about giving each person that walks into a voting booth the confidence that what they're doing matters.

We MUST fight for election integrity, the Constitution, and the preservation of our republic! It will be my honor to help lead that fight in the Congress today.

The statement I drafted summarizes our position and the legal analysis that supports it.

This is not about "overturning an election". This is about protecting the integrity of our elections.

Humm..have you considered doing homework before commenting on Pa? Lived there for 23 years. Leads nation with number of convicted/incarcerated politicians since 2010 (32) Next NY (23). Corruption is a science & the Black community there suffers. My guess— you could care less

Please note the response from an “empathy-free” soul... I mentioned the misery of urban Black Americans I’ve witnessed in the corrupt Dem controlled Pa ..no curiosity, no questions, no “what do mean”?...unfortunately with angry hearts they get angrier and simply “could care less”

Remember my friends, we are Americans. We fight back the Left’s divisive spirit and replace it with We the People harmony. We inherently drift toward the light...civility, service, kindness. Let’s work to find our better selves & watch the angry left implode. Can’t help themselves

Burgess try he carpetbagger why not go back to PA and leave Utah alone you and trump are responsible for the attack on the capital . Resign

It’s true, but the problem is not realizing 99.999% of people agree with that statement.

White supremacy is bad.

An important point on the mainstream media polls. They weren’t just incredibly wrong again. They’re not that incompetent. They didn’t just make a mistake. They made a decision. They said we’re willing to be wrong in order to shape public opinion. No one will hold us accountable.

A week after the election it won’t matter. We’re going to spend two years telling the country that Trump is going to lose, knowing it would have an affect.

It's nothing less than voter manipulation.

Free, fair, and transparent elections are the heart of America and what sets us apart from much of the world. We must continue to count all legal votes and if there is a legitimate claim to fraud, it should be investigated and brought before the courts.

Until we have resolved the issues surrounding voting irregularities, ballot integrity and security, and the implementation of state election laws, I can not, in good conscience, uphold the oath I took to protect and defend our constitution by voting to certify the election.

After serious thought and consideration, I will not vote to certify the election. I believe there are critical questions that need to be answered concerning our Presidential election.

Voting is the most important duty we exercise in a republic. By my objection to certify the election, I am safeguarding the sanctity of each vote.

President-elect Joe Biden deserves to enter his Presidency without this cloud hanging over him. President Trump deserves answers, and most importantly, the American people deserve to have their confidence in our elections restored.
